

Exchange – Password Complexity Requirements

Notes:

Complexity requirements are enforced when passwords are changed or created.

Password must meet the following complexity requirements:

- Not contain the user's account name or parts of the user's full name that exceed two consecutive characters
- Be at least seven characters in length
- Contain characters from three of the following four categories:
 - English uppercase characters (A through Z)
 - English lowercase characters (a through z)
 - Base 10 digits (0 through 9)
 - Non-alphabetic characters (for example, !, \$, #, %)
