

Eduroam

How To Guide for Windows Mobile

This How To Guide OS version may vary with your OS version installed in your devices.
All the illustrations and steps in this document is meant for installation assistant and guidance.

Install Eduroam

1. Go to **phone settings**
2. Tap on **Wi-Fi**

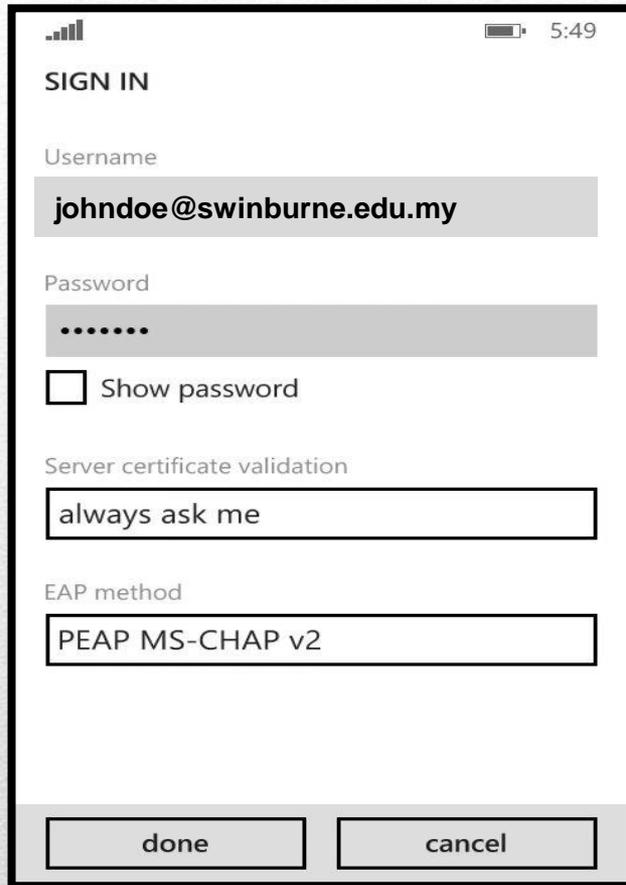

3. Turn on **Wi-Fi**

4. Tap on **Eduroam**
-

Install Eduroam

A screenshot of a mobile application's sign-in screen. At the top, it says "SIGN IN". Below that, there are fields for "Username" and "Password". The username field contains "johndoe@swinburne.edu.my" and the password field contains ".....". There is a checkbox labeled "Show password" which is currently unchecked. Below the password field, there is a section for "Server certificate validation" with a dropdown menu set to "always ask me". Underneath that is the "EAP method" section with a dropdown menu set to "PEAP MS-CHAP v2". At the bottom of the screen, there are two buttons: "done" and "cancel".

5. Username : **ADusername@swinburne.edu.my**
(Eg: johndoe@swinburne.edu.my)
Password : **Blackboard Password**

6. Tap **Done**

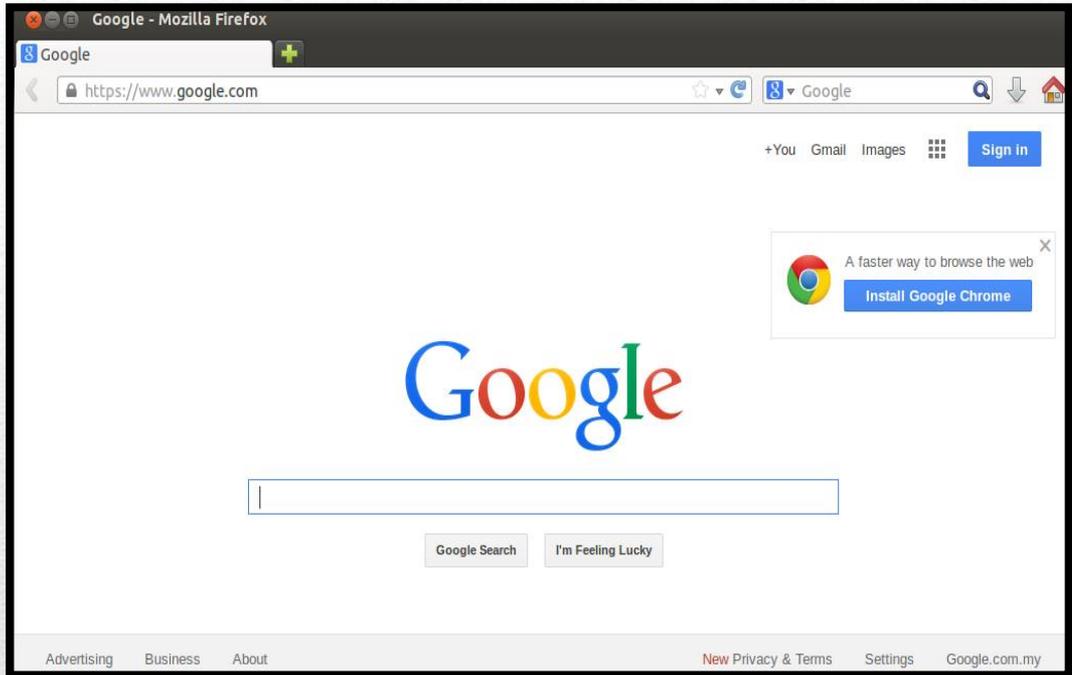

A screenshot of a certificate acceptance dialog box. The title is "Accept certificate and connect?". The main text reads: "This certificate helps ensure that you're connecting to the genuine eduroam network and not a different one with the same name." Below this, it says: "If the names below aren't what you expect, tap Cancel." The certificate details are: "Issued to: MY, Sarawak, Kuching, ITS, Swinburne University of Technology, myise1.swinburne.edu.my" and "Issued by: SUTS-Internal-IssuingCA". At the bottom, there are two buttons: "accept" and "cancel".

7. Tap on **Accept**

Install Eduroam

7. Make sure your device is connected to **Eduroam**

8. Open your Internet browser and test the connection.
