

# POSITION DESCRIPTION

## SECTION A: Position Context

<b>Position Title</b>	Manager, Technology Delivery & Customer Support
<b>Position Grade</b>	M – Manager
<b>Category</b>	Managerial
<b>Campus/Unit</b>	Sarawak Campus – Information Technology (IT)
<b>Term of Appointment</b>	Fixed-Term Appointment
<b>Effective Date</b>	August 2026

## Position Purpose

The Manager, Technology Delivery & Customer Support role is responsible for leading the effective Technology Delivery, optimisation, and continuous improvement of technology services within the IT unit across the University. Reporting directly to the Director, Information Technology, this position ensures strong cross-university alignment, coordinated execution of IT applications and systems initiatives, support for digital transformation priorities, clear communication of progress, and proactive identification of risks and emerging issues. The role also oversees the delivery of high-quality IT customer support to ensure a consistent, responsive, and user-centred technology experience.

The role provides strategic direction within Technology Delivery, IT Customer Support, ensuring that Technology Delivery & Customer Support are reliable, secure, scalable, and aligned with the University's strategic objectives.

### 1. Administrative

- Manage the administrative OPEX and CAPEX for Technology Delivery and Customer Support in close collaboration with IT Administration. All recommendations and improvement initiatives shall be developed in consultation with the Director, IT.

### 2. Technology Delivery Management

- Provide strategic direction to support University growth through the efficient utilisation and optimisation of IT resources.
- Lead the planning, management, and delivery of Technology Delivery & Customer Support team, including enterprise systems, applications development and user support.
- Ensure technology solutions are effectively designed, implemented, integrated, and maintained to meet academic and administrative needs.

### 3. IT Customer Support Management

- Manage for the IT Customer Support function to ensure a seamless, high-quality support experience for all staff and students.
- Oversee end-to-end service desk operations, including incident and request management, service performance, process optimisation, and continuous improvement initiatives.
- Direct the planning, governance, and lifecycle management of IT assets, ensuring accuracy, accountability, and alignment with organisational policies.
- Manage the delivery of campus-wide end-user support services, including helpdesk operations, endpoint management, and audiovisual/telecommunication support.
- Ensure the effective operation and utilisation of computer laboratories, teaching spaces, and collaboration technologies across the University.
- Lead service quality initiatives such as user satisfaction assessments, data-driven reporting, and service enhancement strategies.
- Oversee IT Customer Support planning and execution for University events, ensuring reliable and

responsive technical service.

- Govern software licensing, compliance management, and the deployment of academic and teaching software.
- Drive team development, resource planning, and operational excellence within the IT Customer Support.

**4. Digital & Enterprise Systems and Applications**

- Provide expert guidance in selecting, implementing, integrating, and managing digital and enterprise systems and applications.
- Ensure applications support academic programs, research, administration, and student services effectively and securely.

**5. Policy, Governance & Strategic Alignment**

- Develop, review, and maintain Application policies, procedures, and governance frameworks.
- Ensure alignment with University strategies and promote organisation-wide understanding and compliance.

**6. Cross function Initiatives**

- Provide oversight of key technology Strategy Delivery Initiatives, ensuring successful implementation, budget adherence, and alignment with institutional priorities.
- Coordinate cross-functional teams to deliver technology-enabled improvements.

**7. Vendor, Procurement & Contract Management**

- Manage vendor relationships, procurement processes, contract negotiations, and performance monitoring.
- Ensure service providers deliver value for money and meet agreed service standards.

**8. Executive Communication & Reporting**

- Maintain structured communication with the Director, IT, ensuring visibility of priorities, risks, performance, and issues.
- Prepare reports, dashboards, and recommendations to support decision-making and informed oversight.

**Participation on Committees**

The position may be required to participate on relevant committees as and when needed and as directed by the Director, Information Technology; or Pro Vice-Chancellor and Chief Executive Officer (Sarawak) – PVC&CEO (Sarawak); or any other person as assigned by an authorised personnel.

**Supervision Reporting Relationships**
