

Swinburne University of Technology Sarawak Campus, Malaysia

# Graduation Ceremony Program

---

Borneo Convention Centre Kuching (BCKK)

Wednesday 2 November 2022

# Congratulations and welcome to Swinburne Alumni!

---

Your Swinburne experience doesn't end with graduation. Swinburne Alumni provides valuable opportunities to learn, share and connect with our global community every day.

You'll have access to many benefits, including:

- networking professional development opportunities
- career support
- volunteering and mentoring programs
- exclusive alumni events
- Swinburne Alumni news
- special discounts and offers from our partners.

With over 220,000 alumni in more than 140 countries worldwide, it's important to stay connected!

Update your details online today.

# Information for guests

Welcome to Swinburne University of Technology, The following information is provided to help ensure the comfort, safety and enjoyment of all guests during the graduation ceremony. Please take a moment to read it prior to the ceremony.

- All guests should be seated 15 minutes prior to the ceremony starting time.
- The ceremony will run for approximately 90 minutes.
- Ushers will show you to your assigned guest seating and can provide you with information, assistance and advice.
- Guests are asked to remain in their seats for the entire ceremony. When the academic procession enters the venue, guests and graduates are asked to stand and remain standing until after the National Anthem.
- Our graduation custom is that each graduate is applauded as their name is announced. We encourage all guests and graduates to join us in following this tradition.
- Please note that the ceremony will be photographed and recorded.
- Please ensure all mobile phones are turned off during the ceremony.
- In the event an emergency evacuation is announced please follow instructions and exit the venue promptly under the directions provided.

Selamat datang ke Swinburne University of Technology Sarawak Campus. Maklumat berikut disediakan bertujuan bagi memastikan keselesaan, keselamatan dan kesejahteraan semua tetamu ketika majlis graduasi. Para tetamu diminta untuk membacanya sebelum majlis bermula.

Semua tetamu dinasihatkan untuk duduk ditempat yang telah disediakan 15 minit sebelum majlis bermula. Majlis ini dijangka akan berlangsung selama lebih kurang 90 minit.

- Pengiring tetamu akan mengiringi anda ke tempat duduk tetamu dan akan membantu anda dengan sebarang maklumat, bantuan dan nasihat jika diperlukan. Para tetamu adalah diminta untuk kekal berada di tempat duduk di sepanjang majlis sedang berlangsung. Sewaktu perarakan akademik dan juga pihak Majlis Tertinggi Universiti memasuki dewan, semua tetamu dan graduan diminta berdiri dan kekal berdiri sehingga selesai menyanyikan lagu kebangsaan.
- Sepertimana kebiasaan di majlis graduasi, tepukan gemuruh adalah disyorkan apabila nama setiap graduan diumumkan. Kami amat menggalakkan agar semua tetamu dan graduan dapat mengekalkan tradisi ini.
- Mohon ambil perhatian bahawa seluruh perjalanan majlis ini akan dirakam melalui video dan juga foto.
- Sila pastikan semua telefon mudah alih dimatikan atau dalam mod senyap semasa majlis berlangsung.
- Sekiranya berlaku pengumuman amaran kecemasan, sila keluar dari dewan dengan segera menurut arahan yang disediakan.

欢迎来到斯威本科技大学。以下信息旨在帮助各位来宾便利、安全、愉快地参加毕业典礼。在参加典礼前,请稍花时间阅读本文。

所有来宾都应当在典礼开始前 15 分钟入座。典礼全长约 90 分钟。接待员会引领您入座,并提供相关信息、协助和建议。

典礼进行期间来宾不可离座。学校领导人进入典礼会场时,来宾和毕业生需起立,直到唱国歌结束后方可就座。

本校毕业典礼的惯例为:在宣读每一位毕业生姓名时均鼓掌致意。请全体来宾和毕业生按惯例一起送上祝贺。

请注意,典礼期间会拍照并录像。

典礼期间请务必关闭手机。

若宣布紧急疏散,请遵照指示行动,按要求及时撤离会场。

සිවිතරින් තාක්ෂණ විශ්වවිද්‍යාලය ඔබට සාදරයෙන් පිළිගනී. පහත සඳහන් කර ඇති තොරතුරු, උපාධි ප්‍රධානත්සවයේදී සියළුම අමුත්තන්ගේ පහසුව, ආරක්‍ෂාව සහ ආස්වාදය සහතික කිරීමට උපකාරීවේ. එමනිසා, උත්සවයට පෙර මෙය කියවීම සඳහා කාලය වෙන් කර ගන්න.

සියළුම අමුත්තන් උත්සවය ඇරඹීමට මිනිත්තු 15කට පෙර අසුන්ගත යුතුය. උත්සවය අවසන් වීමට මිනිත්තු 90ක පමණ කාලයක් ගතවේ.

ආසන පෙන්වන අය විසින් ඔබට අමුත්තන් අසුන් ගන්නා ප්‍රදේශය පෙන්වන අතර අවශ්‍ය තොරතුරු උපකාර සහ උපදෙස් ඔබ හට ලබාදෙනු ඇත.

උත්සවය පවත්වන මුළු කාලය පුරාම සිය අසුන්වල රැඳී සිටින ලෙස අමුත්තන්ගෙන් ඉල්ලා සිටීමු. අධ්‍යාපනික කාර්යය මණ්ඩලය ආලෝම වෙත පැමිණෙන අවස්ථාවේ සිට ජාතික ගීය ගායනා කර අවසන් වන තෙක්, අමුත්තන් සහ උපාධිධාරීන් හට සිටගෙන සිටින ලෙස ඉල්ලා සිටීමු.

අපගේ උපාධි ලබාදීමේ චාරිත්‍රය වන්නේ එක් එක් උපාධිධාරියාගේ නම කතා කරන විට ඔල්වරසන් දීමවේ. සියළුම අමුත්තන් සහ උපාධිධාරීන්ව මෙම සම්ප්‍රදාය අනුව කටයුතු කරන ලෙසට අපි උනන්දු කරමු.

උත්සවය ආඥාපනත කිරීම සහ විඩියෝ පටිගත කිරීම කරන බව කරුණාවෙන් සටහන් කර ගන්න.

උපාධි ප්‍රධානත්සව අවස්ථාවේදී සියළුම ජංගම දුරකථන නිවා තිබෙන බවට වගබලා ගන්න.

හදිසියේ ආලෝමව ඉවත් කිරීමක් නිවේදනය කල අවස්ථාවක, කරුණාකර උපදෙස් අනුව කටයුතු කරමින් ලබාදී ඇති මාර්ගෝපදේශ අනුව හැකි විගස ස්ථානයෙන් පිටත්ව යන්න.

# Message from the Pro Chancellor and Premier of Sarawak

Heartiest congratulations to you on your graduation.

As graduates of Swinburne, I am confident that you have obtained an enriching university experience that has shaped your views and built your character. I am also certain that you are well-imbued with the attributes of Swinburne's 2025 Vision that will enable you to be job taker or a job creator in a future world of work defined by technology, innovation and entrepreneurship. I am confident as graduates of Swinburne you are capable of bringing about change and the positive impact in the communities where you live or work.

In addition to being well-versed in the values of "Research with Impact" to transform industries, shape lives and communities, you have been primed for "Innovative Enterprises" where agility, resilience and responsiveness will give you an edge in the constantly changing and increasingly challenging business and work environment.

Following your graduation, you are now ready to join the workforce or to be an entrepreneur. Whatever your career path, it is now both an exciting and challenging time, especially for Sarawakians given Sarawak's goal to achieve developed status by 2030, with the Post Covid-19 Development Strategy (PCDS 2030) where Sarawak will be a thriving society by 2030 with its people enjoying economic prosperity, social inclusivity and sustainable environment driven by data and innovation. This demands new skills and a shift in our thought process to drive innovation and growth in creative, responsible and sustainable ways.

I believe a tertiary education must not only amount to merely obtaining a degree. It must also enable you to think critically, be creative and innovative. In pursuing your career, it is required of you to always uphold your personal and professional integrity, and take responsibility for your actions. Equally important, do always take it upon yourself to give back to the community by employing the knowledge and know-how you have obtained to make life more meaningful to yourself and others.

Today, your graduation is also a celebration for your loved ones who have stood by and encouraged you throughout your university education. Let us also take this opportunity to thank them, as your success is also their success.

"Selamat Berjaya" as I wish you success in your career and your future undertakings. I am certain that you have made lifelong friendships during your study and do always stay in touch with your alma mater to give feedbacks. I sincerely hope that you will have fond memories of your time in Sarawak and we always welcome you back again to the Land of the Hornbills.

Thank you.

**The Right Honourable  
Datuk Patinggi Tan Sri (Dr) Abang Haji Abdul  
Rahman Zohari Bin Tun Datuk Abang Haji Openg  
Pro Chancellor and Premier of Sarawak**

# Message from the Vice-Chancellor

On behalf of the staff at Swinburne University of Technology, I would like to congratulate all our graduating students on your achievements.

You are the next generation of leaders, visionaries, challengers and entrepreneurs who will shape the future in a variety of professions – some of which likely do not even exist at this point in time.

Swinburne has worked closely with industry and future employers – ensuring your degree is relevant, future-proof and equips you with the essential and practical skills you need to kick-start your career.

Whatever your calling, your Swinburne experience will help open many doors.

You graduate today not just with deep knowledge of your disciplines, but with distinct attributes that will set you apart in your fields.

As you leave Swinburne to take your own flight, we want you to feel like you can always come home to Swinburne at any point. We will always be here for you.

I look forward to your ongoing engagement with us and wish you the very best for your future.

I ask you as graduates of Swinburne University of Technology to strive to:

- Practise Swinburne's values of One Swinburne, Future-focused, Engaged, Empowered, and Accountable;
- Seek positive and creative ways to engage with and serve your communities;
- Remain curious and open to new learning and new experiences; and
- Use your knowledge, talents, skills and passion to encourage a better future for the global community

Congratulations.

**Professor Pascale G. Quester**  
Vice-Chancellor and President  
Swinburne University of Technology

# Message from the Chairman of the Board of Directors

On behalf of the Board of Directors, heartiest congratulations to all graduates.

Together with your family members, friends and dedicated Swinburne staff who have taught you throughout your studies, we are proud to witness this significant event today. It is your hard work, commitment and sacrifices that have brought you to receive the internationally recognised Swinburne testamur. At this graduation event, not only do we celebrate your success but also recognise the support your family, friends and lecturers have played in your university journey.

I am proud to acknowledge that graduates from Swinburne's Sarawak campus are pursuing careers throughout the country and abroad. Many are employed by the Top 100 global brands in industries such as financial services, manufacturing, oil and gas, construction, computing, transportation, pharmaceutical and others. Because Swinburne Sarawak graduates are awarded the same internationally recognized Australian qualification by our home campus in Melbourne, Australia, they have wider career options across the globe.

I trust Swinburne's personalised, industry focused education has better prepared you for your career. Our professional placements and internships, accreditation placements, industry study tours and industry-linked projects, flexible learning and student mobility options, as well as student development programmes are just some of what we refer to as 'The Swinburne Advantage'. I hope you have had the opportunity to be part of these activities where students gain valuable industry insights and network with professionals from multiple disciplines.

Swinburne will continue to provide a high-quality Australian education and we have invested RM50 million to further modernise facilities including teaching and learning spaces, accommodation, the cafeteria and student hub. The infrastructural upgrades are vital to enhancing 21st century student experience in preparing them for the future of work in a digital-led environment.

Your graduation today is certainly not an end goal in itself but a launching point for further achievements. I hope your experience at Swinburne Sarawak has enriched your growth as an individual and open many opportunities for you in the future.

Once again, congratulations.

**The Honourable  
Tan Sri Datuk Amar (Dr) Haji Mohamad  
Morshidi Bin Abdul Ghani**  
Chairman of the Board of the Directors

# History of the university

---

The Swinburnes lived for many generations in Northumberland, in the north of England. In early times, the family owned a castle on the banks of the Swin Burn, the brook of the boars. By 1245 the Swinburne coat of arms was 'Gules: three boars heads argent'.

George Swinburne arrived in Melbourne in 1886, aged twenty-five. His early days in Melbourne were spent setting up gas plants and bringing gas-light to the cities and towns. As his business stature increased, he entered State Parliament and became a minister.

Swinburne was established as the Eastern Suburbs Technical College by George Swinburne and the first students were enrolled in 1909, when classes began in carpentry, plumbing and blacksmithing. In 1913 the institution changed its name to Swinburne Technical College, to commemorate the Honourable George Swinburne. Soon afterwards, a boys' junior technical school and the first girls' technical school were established.

Following an extensive reorganisation of advanced education in Victoria in the late 1970s, Swinburne was given the power to grant bachelor degrees. The first of these was awarded at a conferring ceremony held on 21 May 1981 at the Camberwell Civic Centre.

In 1992, Swinburne achieved university status with the passage by the Parliament of Victoria of the Swinburne University of Technology Act. This marked not only Swinburne's distinguished history as a provider of further education, but the beginning of a new period of growth and innovation for Swinburne.

In recent years, Swinburne has progressed to become one of the world's leading research-intensive teaching universities and a leader in online education, expanding the educational opportunities available to a new generation of learners.

Swinburne's emphasis is on high-quality, engaged teaching and research in science, technology and innovation – teaching and research that makes a difference in the lives of individuals and contributes to national economic and social objectives.

Swinburne holds a unique place among educational institutions in Australia in the link that persists between it and the founder and his family. The conferring of a modification of the family's coat of arms preserves and strengthens that link.

# Establishment and History of the Sarawak Campus

---

Swinburne University of Technology Sarawak Campus is the result of a successful combination of goals:

Malaysia's goal of becoming an educational centre of excellence, Sarawak's goal of increasing its technical workforce and Swinburne University of Technology Australia's goal of globalising its operations to provide its students with additional international opportunities while providing quality Australian degrees at aordable costs for students from across Asia.

The Sarawak Campus was established in Kuching, the capital city of the Malaysian state of Sarawak, in 2000. Originally known as Swinburne Sarawak Institute of Technology, it was awarded university status as a foreign branch campus university by the Malaysian Government in 2004 and became Swinburne University of Technology Sarawak Campus. The University therefore has dual nationality, being both a branch of the Australian university as well as a Malaysian university. Degrees awarded are Australian and testamurs are indistinguishable from those awarded in Australia.

The University is jointly owned by Swinburne University of Technology Australia and the Sarawak Government through Yayasan Sarawak (Sarawak Foundation) and Sarawak Higher Education Foundation.

Swinburne Sarawak was founded as part of the Government of Sarawak's strategy to deliver skilled human capital to the engineering and technical elds for the industrialisation needs of the state. The Australian partner in this venture, Swinburne University of Technology is well-known in Australia for its business and technical education and for close links with industry. The University wants to make the same high standard of education available to young people abroad.

Undergraduate degrees offered at Swinburne Sarawak include courses in the areas of Business, Computing, Design, Science and Engineering including double degrees. The University also offers postgraduate by coursework and research programs at PhD and Masters levels in these disciplines while the School of Foundation Studies offers a wide range of preparatory and English language enhancement programs.

The 16.5-acre city campus is only about 15 minutes from the city centre and less than two hours flight from Kuala Lumpur, lesser if you're flying from Singapore. Home to 4,600 students and more than 300 staff, Swinburne is also home to students from more than 45 countries.

After eight years in operations, the Sarawak Campus saw its first expansion where eight new custom designed buildings were added to the campus. This increased the total number of buildings to 12, thus greatly improving teaching and learning facilities, research capabilities and ensures the comfort of our students with an upgraded student accommodation.

In 2020, the university embarked on a campus redevelopment project to fulfil its commitment to enhancing the campus experience for students. Up to RM50 million were invested into enhancing our research, teaching and learning laboratories, student accommodation and cafeteria among others. These upgrades provide students with quality Australian education at affordable fees, preparing graduates for the future of work with flexible and innovative teaching and learning culture.

# Ceremony traditions

## The mace and the chairs

In universities a mace is used as a symbol of institutional authority and it is carried in procession before the Chancellor, and here in Kuching, the Pro Chancellor, as a symbolic weapon of protection and power.

Along with academic dress and graduation ceremonies, the mace is part of the ancient ceremonial that marks the authority of the University and its chief office bearers, the importance of learning and knowledge, and which welcomes the graduate into a special and select group of learned men and women. The ceremony marks the formal entrance of the graduate, who as a student, is considered 'in training', into the academic family of the university. The Mace accompanies the Chancellor, the Pro Chancellor and the academic procession into the hall and remains on view, mounted on a stand, during the ceremony. At the end of the ceremony it is carried out in the procession.

The Swinburne Sarawak Mace Suite is a sister suite to that used by Swinburne Melbourne. The Melbourne suite is fabricated in Queensland Silk Oak, a beautiful Australian timber. The Sarawak suite is fabricated in Belian, a beautiful and revered Sarawakian timber. In fact, part of the timber in the mace comes from the family house of YBhg Datu (Dr) Haji Abdul Rashid Bin Mohd Azis, a foundation member of the University, creating a living link between Sarawak's rich historical past and the future promise of education and development.

A finial, a type of crown crafted in solid silver and gold is mounted at the top of the mace. The Australian crown contains a miniature carving of the University crest. The carving inside the Sarawakian crown has incorporated the hornbill, the State emblem, centered in a wreath of Eucalyptus and Belian leaves, to symbolise the blending of two cultures and two histories. In both cases the carving incorporates a book with a heraldic cinquefoil, from the French 'cinque feuilles' meaning 'five leaves', which dates from the family crest of George Swinburne, the University's founder. The book is a symbol of knowledge and learning incorporated into the Swinburne crest by the Royal College of Heralds, London. The tail of the mace is finished in solid silver.

The two ceremonial chairs are for the Chancellor and the Pro Chancellor. The University motto: 'Factum per Literas' which refers to achievement through learning, is part of a ribbon carved into the back of the chairs. Small silver stars of the Southern Cross constellation, also contained in heraldic form in the University crest, are mounted into the backs of the chairs. The chairs sit to the front of the dais in the traditional attitude of enthronement.

Distinguished artisans and craftspeople involved in the project with the designer were:

- Hendrik Forster, silversmith, who crafted the silver and gold crown and the silver mace stand brackets,
- Iann Higgs, cabinetmaker, who created the timber components of the mace, mace stand and chairs,
- Marion Marshall, silversmith, who crafted the stock tail and the stars of the Southern Cross,
- Sue Wraight, netsuke carver, who created the hornbill miniature carving.

Professor Roger Simpson and Ms Monique Jedwab contributed to project management and detailing.

The ceremonial items of the office of the Chancellor and Pro Chancellor of Swinburne Sarawak were designed by Emeritus Professor Helmut Lueckenhausen, the former Pro Vice-Chancellor and Chief Executive Officer Swinburne Sarawak.

Ian Higgs made the timber components at the training workshop of the Sarawak Timber Industry Development Corporation at Kota Samarahan, supported by members of STIDC and particularly through the kind offices of YBhg Datu Haji Len Talif Bin Salleh, the former General Manager.

# Ceremonial regalia

## Chancellor

A black gown of English Queen's Counsel style, with ten gold bands on the sleeves and scarlet satin trimmings on the front, collar and bottom edge of the gown. A black velvet trencher with gold trim on the base and a gold braid and tassel is worn.

## Deputy Chancellor

A black gown, similar in style and colour to the Chancellor's, with five gold bands on the sleeves. A black velvet trencher with a gold cord and tassel is worn.

## Vice-Chancellor

A black gown of English Queen's Counsel style, with ten silver bands on the sleeves and scarlet satin trimmings on the front, collar and bottom edge of the gown. A black velvet trencher with silver trim on the base and a silver cord and tassel is worn.

## Deputy Vice-Chancellors

Based on the design of the Vice-Chancellor's regalia, a Deputy Vice-Chancellor's regalia is of similar style and colour, but with five silver bands on the sleeve. The mortar board of a Deputy Vice-Chancellor has no braid on the bottom.

## Members of Council

Council members wear a university stole featuring the Swinburne Coat of Arms with the academic dress for their qualifications. The stole is cherry red with an embroidered crest at the base of each side of the stole, and is worn with the colour and crest showing on both sides.

## Academic and administration staff

Academic dress for their qualifications, or the Swinburne equivalent.

# Academic regalia

The academic dress worn at Swinburne today is a modification of everyday dress worn by scholars and teachers in the Middle Ages and the Renaissance. It consists of a gown and a scarf-like stole or hood, which is a remnant of the cowl that was once worn to cover the head and shoulders to keep off the rain and snow. Trencher caps or bonnets are worn as indicated below, with the tassel down over the left eye and in a vertical position.

The style of academic dress adopted by Swinburne University of Technology is based on that of the University of Oxford.

## Honorary doctorate

A cardinal red gown with silver grey front and sleeve facings. The hood is cardinal red, fully lined in silver grey and is worn with grey showing on both shoulders. A tudor bonnet with a silver cord and tassel is worn.

## Honorary master degree

A cardinal red gown with silver-grey front facings. The hood is cardinal red, fully lined in silver grey and is worn with silver grey showing on both shoulders. A black trencher with a silver cord and tassel is worn.

## Doctor of philosophy

A black gown faced with chilli red and silver grey. The hood is chilli red, fully lined in silver grey and is worn with silver grey showing on both shoulders. A tudor bonnet with a scarlet cord and tassel is worn.

## Professional doctorate

A black gown faced with chilli red and the discipline colour. The hood is chilli red, fully lined in the discipline colour, and is worn with the discipline colour showing on both shoulders. A tudor bonnet with a scarlet cord and tassel is worn.

## Double masters degree

A black master gown, hood and trencher. The hood is black, and fully lined with the colours of both disciplines. It is worn with the colours showing on both shoulders.

## Masters degree

A black master gown, hood and trencher. The hood is black, fully lined with the discipline colour, and is worn with the colour showing on both shoulders.

## Graduate diploma

A black gown, stole and trencher. The stole is black, lined with the discipline colour, and is worn with the colour showing on both sides.

## Graduate certificate

A black gown, stole and trencher. The stole is black, lined with the discipline colour, and is worn with the colour showing on the left-hand side.

## Bachelor honours degree

A black gown, hood and trencher. The hood is black, half lined with the discipline colour and laced with a silver braid, and is worn with the colour showing on the left-hand side.

## Double bachelor degree

A black gown, hood and trencher. The hood is black, half lined with the colours of both disciplines, and is worn with the colours showing on the left-hand side.

## Bachelor degree

A black gown, hood and trencher. The hood is black, half lined with the discipline colour, and is worn with the colour showing on the left-hand side.

## Associate degree

A black gown, stole and trencher. The stole is black, lined with the discipline colour, and is worn with the colour showing on the right-hand side.

## Advanced diploma, associate diploma and diploma

A black gown and stole. The stole is black, lined with the discipline colour, the right-hand edge being trimmed with white cloth, and is worn with the colour and white trim showing on the right-hand side.

## Advanced certificate, certificate IV, certificate III and apprenticeship

A black gown is worn.

## Indigenous stole

A stole in the colours of the Aboriginal Australian flag can be worn by indigenous graduates and staff at graduation ceremonies. The stole is worn under any academic colours, or where there are no academic colours (i.e. certificate and apprenticeship recipients) the stole is worn under the gown.

## Academic regalia discipline colours

## Swinburne Research

Swinburne has consistently pursued a policy of ensuring quality and critical mass by investing resources in areas of research concentration. Swinburne actively encourages and values its international and industry connections which enrich and enhance the research efforts and careers of our academic staff and students alike.

Graduates listed below have each made a valuable contribution to Swinburne and their respective fields of research.

### Master of Engineering (Research)

Adeline Kher Li LIM

Oil Palm Trunk Activated Carbon for the Removal of Tannin, Acid Blue 25, and Sunset Yellow: Synthesis, Kinetics, and Isotherms

Activated carbon (AC) is a unique and versatile carbonaceous adsorbent with a high degree of porosity, well-developed surface area, and specific functional groups that are necessary for the removal of contaminants, making it one of the best candidates for removing pollutants from an aqueous medium. This thesis focuses on utilising oil palm trunk (OPT) as the precursor for the synthesis of AC via chemical activation and semi-carbonisation for the adsorption of tannin, acid blue 25, and sunset yellow in single and binary adsorbate systems. The adsorption behaviours and future application of OPT-derived AC for wastewater remediation are discussed.

Design and Investigation of Low-Power Linear-In-Decibel S-Band Power Detector

This research aims to design a low-power linear-in-decibel RF power detector using a 180 nm standard CMOS process. The RF power detector targets S-band frequency range (2 GHz to 4 GHz) applications in wireless communication and as sensing devices in the agriculture sector, where low-power consumption, wide dynamic range, and high sensitivity are required. The S-band frequency is suitable because most design of microwave ring resonators for agricultural applications operates in frequency ranging between 2 GHz and 4 GHz. The proposed power detector could also be used to manufacture cheaper VNA's which has multiple important applications at present time.

### Master of Science (Research)

Celina Sze Jun PHANG

Investigating The Adoption And Contribution of Literature-Based Discovery Methods Towards Clinical Research Ideation Among Investigator Initiated Research Projects in Sarawak, Malaysia

This research study indicated that the ability of Literature-Based Discovery system to establish plausible connections enables researchers in gaining new knowledge for hypothesis generation and testing. Several challenges affecting the perceived usability of the Literature-Based Discovery system were identified from the interviews with four researchers with biomedical background. The interview results revealed that the participants faced different usability challenges at the inquiry, investigation and navigation stages of Literature-Based Discovery style hypothesis generation activity. Despite the challenges, findings from the interviews also showed that Literature-Based Discovery systems are capable of broadening users' knowledge base through its employment of graph visualization in result presentation.

Felicia ANDAYANI

Investigating the Impacts of LSTM-Transformer on Classification Performance of Speech Emotion Recognition

Speech Emotion Recognition (SER) is a task of recognizing emotions by learning the features extracted from speech signals. This research focuses on designing and developing an LSTM-Transformer hybrid model for the SER system to learn the long-term dependencies in speech signals as well as investigating its impacts on the classification performance of SER. The resulting recognition accuracy showed that the LSTM-Transformer hybrid model could learn the temporal information from the frequency distributions according to the Mel-Frequency Cepstral Coefficients (MFCCs) of each emotion on language-independent and language-dependent datasets.

Remote Arrhythmia Detection for Eldercare

Cardiovascular disease continues to be one of the most prevalent medical conditions in modern society, especially among elderly citizens. This thesis reviewed the challenges of automatically detecting heart arrhythmias and developed a platform for remote monitoring with an emphasis on early arrhythmia detection and scalability. Additionally, a novel two-phase classification scheme was proposed and applied to an existing electrocardiogram classification algorithm, improving its predictive performance for arrhythmia detection. Testing of a prototype setup was performed on 27 unique patients at the Sarawak General Hospital to evaluate the effectiveness and future applications of the work.

*Willone LIM*

Impacts of digital devices on digital skills, digital competencies, health and well-being of teenagers

This result of this research could contribute to the limited existing knowledge on the impacts of digital devices on teenagers age group. This research explore the devices usage pattern among teenagers to help the society to understand the truth about various problems that are sometimes disregarded. Most importantly, this research provides a new perspective to different stakeholders on teenagers digital devices use and implement intervention and support when necessary.

Xun Ting TIONG

Improving the Prediction of Diabetes in LIFECARE Cohort Using Cluster-Based Undersampling

This thesis aim is to help identify individuals that will develop diabetes (high blood glucose in the body). In order to be able to predict accurately, risk factors need to be identified and a prediction model is needed. As individuals that develop diabetes is of the minority group, there is data imbalance. Hence, to address this issue, Cluster-Based Undersampling was used. The LIFECARE Cohort is a Cohort in Sarawak which recruited healthy individuals to study the development of disease. This thesis shares the significant factors identified using LIFECARE cohort and the step by step methodology for the proposed method ODS-CBUS.

Reshaping Employee Engagement: The Effects of Transformational Leadership, Workplace Digitalisation, Innovative Culture, Digital Literacies and Rewards- Recognition

This study investigated and supported that transformational leadership, innovative culture, and workplace digitalisation are significant drivers of employee engagement. Besides, innovative culture partially enhances employee engagement through workplace digitalisation. Digital literacies and rewards-recognition strengthen employee engagement. The results suggest that industry practitioners who intend to raise employee engagement can first focus on fostering employees' perception of workplace digitalisation, and then supplement this with a supportive environment, such as digital literacies and rewards-recognition. Engaged workforce are crucial as a competitive advantage to unlock organisations' values, especially with the accelerated workplace digitalisation post-COVID-19 pandemic.

The Integrated BIM-MyCREST Process Model for Reengineering the Green Building Design Practices

Sustainable buildings provide social, economic, and environmental benefits. To accurately exchange the comprehensive information during the sustainable building design, the Building Information Modelling process was introduced. However, the most common problem in designing a sustainable building remains the absence of accurate information to make timely decisions. Hence, this study provides a well-structured approach that can enable the diverse design team to collaboratively use the enormous software to exchange accurate information, and efficiently design buildings with high sustainability performance. The research output will promote the adoption of sustainable building development; thereby facilitating the accomplishment of the United Nations sustainable development goals.

Syzygium Polyanthum (Wight) from Sarawak as a potential source of compounds exhibiting in vitro anti-cancer activity against nasopharyngeal carcinoma (NPC)

Nasopharyngeal carcinoma is a cancer of the nasopharynx. The Malaysian state of Sarawak reports one of the highest incidence rates globally, coming in close to front runners Hong Kong and China. Natural products have garnered research interest for drug discovery, depicted by Aspirin, Morphine and Taxol, all derived from natural plant sources. Sarawak evokes images of dense forests rich in biodiversity, presenting the perfect canvas for bioprospecting. This thesis focuses on Syzygium Polyanthum (Wight) plant from Sarawak exhibiting activity against nasopharyngeal carcinoma cells. Computational-learning platforms were employed and validated by molecular methods to identify the anti-nasopharyngeal cancer mechanisms of the plant.

Hui En LEE

Geo-tracing of Black Pepper using Metal Oxide Semiconductor Gas Sensors

Malaysia produces black pepper of superior quality, especially in the state of Sarawak. Sarawak black pepper is widely known in the global market and fetches higher price compared to its competitors. There has been arising concerns of increasing fraud products that claimed their origin to be from Sarawak for better price. Using metal oxide semiconductor gas sensors, this PhD research develops an accurate, inexpensive, rapid, portable and non-invasive geo-tracing method to establish product differentiation of black pepper by geographical origins. Therefore, the higher price of Sarawak black pepper can be justified, and its product can be authenticated against fraud.

Medical tourism in Malaysia: an investigation of the destination branding factors and its influence on the behaviour of medical tourists

The steady growth of the medical tourism industry made it one of the most attractive and economically viable tourism sectors for different countries. Over the past few years, Malaysia has been one of the beneficiaries of the industry and now wants to become the top destination for medical tourism around the region. This study focused on branding the Malaysia medical tourism industry. This was done by looking at the behaviour (their awareness, perception of image, quality and satisfaction) of medical tourists to determine their intention to revisit the country in the future or recommend others to visit.

*Su Chen PHANG*

Cultural identity and branding: Insights from a multiple identities perspective in a globalised world

This thesis aims to better understand the influence of ethnic, national, and global cultural identities on ethnic, national and global brand behaviours from single and multiple cultural identities perspectives. The findings support assertions that consumers' cultural identities influence their brand behaviours, depending on the level of their identification with the cultural identities and the amalgamation of these identities. The findings also established the existence of anchoring cultural identity in multiple identities conditions. These key findings have implications for studying multiple cultural identities and brands' target markets.

*Yaw Seng EE*

Travellers' Online Hotel Booking Behaviour: Insights from Usability and Trust Perspectives

The novelty of this thesis lies in new knowledge contribution to literature, customers and practitioners on distinguishing the positive effects of cognitive-based usability and affective-driven trust attitude and their respective antecedents on adoption behaviour towards online hotel booking mobile application and website. Affective- or emotional-based trust is found to have a stronger positive effect on adoption behaviour than cognitive-oriented usability. Given this, industry practitioners may strategise and enhance technologies. Hotel booking mobile applications and websites that generate feeling of competency and integrity facilitate customers' decision making in choices. This amplifies confidence and satisfaction, and hence, greater technology adoption and usage.

Development of novel techno-economic framework for enhancing a Tri-Ethylene Glycol-based natural gas dehydration unit

The maximum purity of the regenerated Tri-Ethylene Glycol (TEG) in an absorption-based natural gas dehydration process is capped at 98.8% since the operating temperature of the reboiler cannot exceed 204 oC, otherwise the TEG will thermally degrade. Several enhanced dehydration processes are available to overcome this limitation such as the stripping gas dehydration process using a portion of dry product gas, inert gas, or volatile hydrocarbon (DRIZO process). This thesis presents a novel techno-economic framework for the selection of the best dehydration process that simultaneously meets the water dew point specification and generates the highest net profit margin.

One qualification.  
A world of connections.  
Swinburne Alumni.

Your Swinburne qualification connects you to a global community of over 220,000 graduates in more than 140 countries.

Stay connected!

- Networking and professional development opportunities
- Career support
- Exclusive alumni events
- Volunteering and mentoring programs

### Malaysian National Anthem

Negaraku  
Tanah tumpahnya darahku  
Rakyat hidup, bersatu dan maju  
Rahmat bahagia, Tuhan kurniakan  
Raja kita, selamat bertakhta  
Rahmat bahagia, Tuhan kurniakan  
Raja kita, selamat bertakhta

### Australian National Anthem

Australians all let us rejoice  
For we are young and free  
We've golden soil and wealth for toil  
Our home is girt by sea  
Our land abounds in nature's gifts  
Of beauty rich and rare  
In history's page, let every stage  
Advance Australia fair  
In joyful strains then let us sing  
Advance Australia fair

### Sarawak State Anthem

Sarawak Tanah Air Ku  
Negeriku Tanah Air Ku Sarawak  
Engkaulah Tanah Pusaka Ku  
Tanah Tumpah Darah Ku  
Ibu Pertiwi Ku  
Rakyat Hidup Mesra dan Bahagia  
Damai Muhibah Sentiasa  
Bersatu Berusaha Berbakti  
Untuk Sarawak Ku Cintai  
Sarawak Dalam Malaysia  
Aman Makmur Rahmat Tuhan  
Maha Esa  
Kekallah Sarawak Bertuah  
Teras Perjuangan Rakyat  
Berjaya Berdaulat

# Vice-Chancellor's Charge to Graduates

In conferral of your award I ask you as graduates of Swinburne University of Technology to strive to:

- practise the University's values of integrity, accountability, teamwork, innovation, sustainability and respect for diversity;
- seek positive and creative ways to engage with and serve your communities;
- remain curious and open to new learning and new experiences;
- use your knowledge, talents, skills and passion to encourage a better future for the global community.
